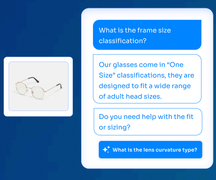
Surface the latest fashion trends with Algolia's intelligent fashion solution

Algolia's most advanced AI search delivers personalized experiences that your customers expect.

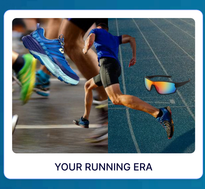


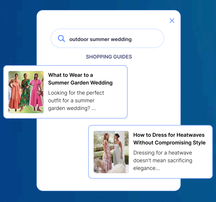
AI Assistant

Create conversational and interactive search journeys with a Gen AI-powered fashion advisor.

Curated Catalogs

Take control over how products and items are displayed across search results and category pages.



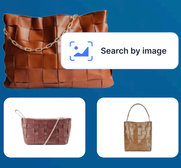


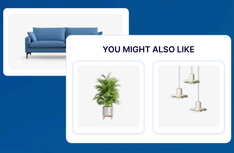
Shopping Guides

Use AI to create informational shopping guides, category guides, or detailed product comparisons.

Shop with Your Eyes

Enable visual browsing so users can upload images to match and compose looks.



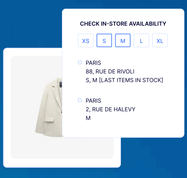


Algolia Recommend

Use AI to identify users' unique preferences and make personalized and accurate recommendations.

Shops Deliver Experience

Bridge the online and offline shopping experience with real-time information about product availability and inventory location.



Cloud native and optimized for AWS.

Launch campaigns, drive conversions, and unlock new revenue faster with an implementation that takes days, not months.

Stay ahead of the style curve, with Algolia's **intelligent fashion solutions.**
