

Algolia named a Leader in the **Gartner® Magic Quadrant™** for Search and Product Discovery

Read the 2026 report

For the 3rd consecutive year, Algolia has been recognized as a Leader of Search and Product Discovery for its ability to execute and completeness of vision.

Agentic. Generative. Search.

Algolia has powerful AI tools to build intuitive, adaptive, and high-performing digital experiences for all types and sizes of businesses

Agent Studio

Rapidly build, test, and deploy branded AI agents to improve the customer experience, eliminate workflow friction, or boost business outcomes.

Data enrichment and transformation

Search is only as good as your data. We have tools to modify, and restructure your data for optimal search indexing, and streamlined solutions to enhance your data quality.

Analytics

Unlock top performers and improve search relevance with visibility into real-time changes.

Merchandising Studio

The no-code interface that gives merchandising teams no-code access and control.

Ask AI

Give your customers immediate, precise results in conversational language, right in your search bar.

Personalization

Deliver search experiences tailored to each user's behavior and preferences, so every result feels more relevant.

Multi-Modal Search

Search across text, images, and more with fast, intuitive discovery in a single experience.

Generative AI

Answer-first shopping guides that help users discover, compare, and buy with confidence.

Algolia continues it's ongoing commitment to pushing the boundaries of search and discovery.

Algolia's unique advantage

Algolia is the **leading AI-powered search and retrieval platform**, powering over 1.75 trillion searches a year for more than 18,000 businesses and millions of developers worldwide. Built on a developer-first, API-first foundation, Algolia combines keyword, vector, and hybrid retrieval with powerful rules, personalization, and analytics to deliver the world's fastest, most scalable AI search technology.

Backed by more than a decade of innovation, Algolia is redefining how businesses and builders create agentic, retrieval-powered experiences — from Retrieval-Augmented Generation (RAG) to LLM-based applications through its MCP server and next-generation tools like AskAI and Agent Studio. With unmatched speed, trust, and simplicity, Algolia is shaping the future of intelligent discovery and AI agents.

About Algolia

Algolia is an AI-native, API-first search and discovery solution and the largest hosted search engine in the world.
